

Outer Hoods

Description and functions

The outer hood serves as a solution for increased sound protection requirements and weather conditions. It is used instead of the conventional outer grille on all components of the 160 series (e⁹⁰ and Ne^{xt} components separately), for the exhaust air fans RA 15-60 and AB 30/60, the e²/e²neo as well as the outer wall air vent ALD.

The flow through the screen takes place at the bottom; an insect protection is integrated.

Through the use of the outer hood, a significant improvement or increase in the standard sound level difference can be achieved. All things considered, the decisive improvement depends on the entire component (window, wall, ETICS, etc.). The screen is thus also suitable for particularly high noise areas.

Installation

The installation is carried out by screwing and doweling the frame onto the outer wall.

The hoods are simply pushed into the screwed frame and fixed with a small screw.

Technical data

Dimensions in mm (H x W x D)

235 x 205 x 72

Material

1/HWE

aluminium, white, similar to RAL 9016

1/HAZ

aluminium, anthracite, similar to RAL 7016

1/HWE-2

aluminium, white, similar to RAL 9016

for e⁹⁰ and Ne^{xt}

1/HAZ-2

aluminium, anthracite, similar to RAL 7016

for e⁹⁰ and Ne^{xt}

Dimensions in mm (H x W x D)

217 x 257 x 63

1/EGA, plastic, white, similar to RAL 9016
for e⁹⁰ and Ne^{xt}

Accessories

Included in the scope of delivery:
Frame and screen

Further details

Brand: LUNOS
Type: 1/HWE
Order No. 040 020

Type: 1/HAZ
Order No. 040 021

Type: 1/HWE-2
for e⁹⁰ and Ne^{xt}
Order No. 040 107

Type: 1/HAZ-2
for e⁹⁰ and Ne^{xt}
Order No. 040 108

Type: 1/EGA
for e⁹⁰ and Ne^{xt}
Order No. 040 019

Note

Products and illustrations may vary slightly.

Due to continuous product development and/or several suppliers e.g. for raw materials, colours, among other things, may vary slightly or be shown differently in brochures.
